

src/plugins/DetectSpheres
/DetectSpheresParametersDialog.hh

```
graph BT; A["src/plugins/DetectSpheres  
/DetectSpheresParametersDialog.hh"] --> B["src/plugins/DetectSpheres  
/DetectSpheresThread.hh"]; A --> C["src/plugins/DetectSpheres  
/PluginDetectSpheres.hh"];
```

The diagram illustrates a header file dependency. At the top, a grey-shaded box represents the header file `src/plugins/DetectSpheres/DetectSpheresParametersDialog.hh`. Below it, two white boxes represent source files: `src/plugins/DetectSpheres/DetectSpheresThread.hh` on the left and `src/plugins/DetectSpheres/PluginDetectSpheres.hh` on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header file.
